

AAG ALFFA STRESS PAC

For all swine and poultry

General Description:

AAG Alfa Stress Pac is a dry, meal supplement. It is designed to be used in swine and poultry feeds to improve villi height and crypt depth resulting in better enterocyte performance.

Feeding Directions

Recommended usage rates of AAG Alfa Stress Pac is 20 g per head per day for sows, gilt and boars, 2.5 to 3.5 g per piglet per day and for poultry 2.5 to 5 lb per ton of complete feed. Thoroughly mix AAG Alfa Stress Pac with the other ration ingredients prior to feeding.

Ingredients

Yeast Culture, Citrus Peel, Mono and Di-glycerides of Edible Fat Forming Acids, Dried Corn Distillers Grains, Egg Shell Meal, Hydrochloric Acid, Citric Acid, Propionic Acid.

Key Points

1. Use continuously to improve gut health.
2. Moderate inclusion rate lowers cost of supplementation with improved performance.
3. Dry meal for easy addition to feed

AAG ALFFA STRESS PAC

For all swine and poultry

Product Features:

Yeast Culture

Esterified medium chain fatty acids (MCFA)

Highly soluble peptides and phytonutrients

1% Calcium

Made in US facilities free of porcine products

Dry meal

Product Benefits:

This special strain of *Saccharomyces cerevisiae* produces a higher protein and amino acid end product than others available on the market.

Promotes increased villi height, crypt depth and villi to crypt depth ratio resulting in improved gut health.

Provides readily available peptides and phytonutrients from citrus peels that is easy to digest; maximizes animal performance economically

Provides a small amount of supplemental calcium

Improved biosecurity

Easy to use.
